

MO ASHAD

DEVOPS & CLOUD ENGINEERING ASPIRANT

Gorakhpur, Uttar Pradesh | +91 85286 59030 | mohmmad.ashad18@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

BCA student and DevOps enthusiast with hands-on practice in Linux, Git/GitHub, Docker, Kubernetes, Jenkins, GitHub Actions, Python and cloud platforms. Built and tested a containerized Flask CI/CD project and completed a cloud computing internship. Seeking an entry-level DevOps, Cloud Support or Technical Operations opportunity.

TECHNICAL SKILLS

DevOps & CI/CD: Git, GitHub, GitHub Actions, Jenkins, Docker, Kubernetes

Cloud & Systems: AWS CLI, Google Cloud SDK, IBM Cloud, Linux, WSL, Windows

Development: Python, Flask, HTML, CSS, SQL, REST APIs, Pytest

Tools & Concepts: VS Code, Networking, YAML, VirtualBox, Vagrant, CI/CD fundamentals

SELECTED PROJECTS

CI/CD Pipeline for Flask Application | GitHub Actions | Docker | Pytest

- Created an automated workflow to install dependencies, run tests and validate application builds on every code push.
- Containerized the Flask application with Docker and used Git/GitHub branching and pull workflows for version control.

github.com/Mo-Ashad/CI-CD-Pipeline-with-GitHub-Actions

Cloud-Based Data Redundancy Removal System | Python | Flask | CSV | Data Processing

- Built a web application to upload CSV files, detect duplicate records, prevent duplicate insertion and download cleaned datasets.
- Added missing-value analysis, dataset statistics and exploratory insights through a clean Flask interface.

Flask AI Chatbot Deployment | Python | Flask | Gemini API | Gunicorn

- Developed a Flask chatbot with conversation history, clear-chat functionality, REST endpoints and structured error handling.
- Prepared production dependencies and a Gunicorn start configuration for cloud deployment and environment-based API key management.

HANDS-ON DEVOPS LAB EXPERIENCE

- Configured Jenkins as a Windows service and practiced local CI setup, service troubleshooting and Java runtime compatibility checks.
- Installed and initialized AWS CLI, Google Cloud SDK and Kubernetes CLI; practiced command-line authentication and environment verification.
- Used WSL 2, Linux package management, Docker Desktop, VirtualBox and Vagrant to build and troubleshoot local development environments.

EXPERIENCE

Cloud Computing Intern | CodeAlpha | Jun 2026

- Completed a one-month virtual internship focused on cloud computing concepts and practical project execution.
- Applied Python, Flask, GitHub and deployment fundamentals while documenting and delivering assigned work.

EDUCATION

Bachelor of Computer Applications (BCA) | 2024 - 2027

Institute of Technology & Management (ITM), GIDA, Gorakhpur, Uttar Pradesh

CERTIFICATIONS

- Networking Basics - Cisco Networking Academy (Jul 2026)
- Getting Started with Microservices with Istio and IBM Cloud Kubernetes Service - IBM SkillsBuild (Jun 2026)
- Python 101 for Data Science - IBM SkillsBuild (Jun 2026)
- Introduction to the Basics of Azure Services - Microsoft / Simplilearn SkillUp (Jul 2026)
- Machine Learning: Dimensionality Reduction - IBM SkillsBuild (Jun 2026)
